

International Women's Day

5th March | It was an honour to have Nell White, the founder of Osusu Sa Lone, join us at the VSC. She captivated us about the lifestyle and importance of education for girls in Sierra Leone and shed light on the crucial work her charity does to support girls' education in the region.

Thanks to the generosity of both our Staff and visiting Members, we raised a wonderful total of £310, enough to sponsor two girls for a year through Osusu Sa Lone. Your support has made a tangible difference in the lives of these young girls, empowering them through education, and changing their lives.
